Welcome to Conner Prairie! We are proud to offer families with children and adults with autism, as well as other sensory or developmental challenges, a local attraction with a focused and friendly environment.

This map shows the locations of ‘Quiet Spots’ where you’ll find sensory kits, thanks to the support of Anthem. These kits contain weighted blankets and soft sensory toys. Please use these spaces as needed. Two of these locations are identified as ‘staff only’ locations, but please do not let that stop you from entering. Staff members are happy to exit the space as needed.
Below are tips to consider in planning your adventure around Conner Prairie today.

- **If someone does not like loud noises**, be aware that Civil War Journey and Lenape Indian Camp have occasional gunfire demonstrations. The Mayfield & Nichols Dry Goods Store in Civil War Journey also has loud noises.

- **If someone likes to interact with animals**, our Animal Encounters Barn is perfect.

- **If someone likes to tinker**, visit Create.Connect inside the Welcome Center.

- **If someone likes to get their hands dirty**, join interpreters in tasks in 1836 Prairietown and Lenape Indian Camp.

- **If someone likes to play with toys**, ask at the various houses located in 1836 Prairietown.

- **If someone does not like swift visual action/transitions or flashing lights**, they might want to avoid the Civil War Journey media presentations inside the Mayfield & Nichols Dry Goods Store and The Raid.
